

THE ULTIMATE TOWED BRUSH FOR NATURAL AND SYNTHETIC TURF

The Greens-Groomer, with its quadruple 'zig-zag' brush pattern gives unrivalled sand dispersion and topdressing performance.

Instead of throwing the sand forward to the edge of the green like a rotary brush does, the Greens-Groomer's 16 brushes work the topdressing down between the grass blades, right down to the base of the sward, and into your coring holes.

The Greens-Groomer avoids leaving tramlines, takes less passes, and saves bruising the turf.

Easy to use with any power unit, the Greens-Groomer is the effective way to get your greens back in play sooner!
